Satellite Pro

The mobile solution for cost-conscious SMB users:

The Satellite Pro A10 series

Keep your life and business on track with Toshiba's entry-level professional notebooks. The Satellite Pro A10 is the perfect solution for small-to-medium businesses, where these immensely versatile, great-value notebooks in a sleek silver design will bring added power, mobility and performance to everyday tasks.

- Remarkable value for money – exceptional technology and power out of the box to run some of the most demanding applications
- State-of-the-art performance – outstanding power courtesy of high-level specs featuring mobile Intel® Celeron® processors up to 2.5 GHz
- Cutting-edge communication – everything on board, including a Wireless LAN antenna for easy upgrade to either dual band 802.11a/b or 802.11b Wi-Fi™
- Amazing flexibility – features a DVD-ROM drive or CD-RW/DVD-ROM drive, docking available via the optional USB 2.0 Port Replicator
- Life made easier – integrated PC Card (Type II) slot and wide range of ports including 2 x USB 2.0 support extra functionality and connectivity

Toshiba recommends Microsoft® Windows® XP for Mobile Computing

Satellite Pro

Remarkable value for money
For the small-to-medium business user, the Satellite Pro A10 offers unrivalled value in an all-in-one hardware package, supported by Toshiba's excellent quality and reliability. Inside the robust yet ultra-stylish silver case is the latest technology and software, including Microsoft® Windows® XP, to cope effortlessly with demanding applications.

State-of-the-art performance
Whatever your business needs, these affordable notebooks deliver exceptional performance via the latest mobile Intel® Celeron® processors up to 2.5 GHz. With 256 MB RAM, upgradeable to 1,024 MB, and up to 30 GB HDD storage so you can maximise the opportunities of today's digital lifestyle.

Cutting-edge communication
Get connected almost anywhere and anytime, and communicate without being tied down. The integrated dual band wireless antenna allows you to easily upgrade the Satellite Pro A10 to full Wireless LAN 802.11a/b or 802.11b Wi-Fi™ capability. An internal V.90 modem gets you online, while the built-in Ethernet LAN lets you access your office network.

Amazing flexibility
This notebook excels when it comes to versatility. A DVD-CD-RW drive, on some models, is fully integrated for reading DVD and burning CD's. The optional USB 2.0 Port Replicator removes the hassle of connecting multiple cables. And for spectacular visual quality a 15" TFT display is integrated on some models.

Life made easier
Everything about the Satellite Pro A10 is designed to simplify and enhance your mobile computing experience. You can add state-of-the-art storage and expansion options via the on-board PC Card (Type II) slot or attach devices to the two high-speed USB 2.0 ports for data transfer rates of 480 Mbps. Toshiba's unique ConfigFree™ software makes light work of network control.

Warranty	1-year pick-up & return warranty	
Options	128 MB memory kit, 256 MB memory kit, 512 MB memory kit, universal AC adapter, battery pack, battery charger, USB diskette drive, Mini-PCI Wireless LAN (802.11b) module kit (dealer upgradeable), Mini-PCI Wireless LAN (802.11a/b) module kit (dealer upgradeable)	

CPU performance may vary from specifications under certain conditions such as the use of battery instead of AC power, certain external peripherals, certain multimedia applications or network connections, complex modelling software and in areas with low air pressure at high altitude (1,000 metres above sea level) and/or certain temperatures. CPU performance may also vary from specifications due to design configuration. Under some conditions, your computer may automatically shut down as a normal protective measure. To avoid risk of lost data, please make periodic back-up copies. For optimum performance, use your computer only under recommended conditions. Please read detailed restrictions in the product resource guide, visit the Toshiba website: computers.toshiba-europe.com and/or contact Toshiba Technical Support. • One GB means one billion bytes. • Battery life may vary depending on applications, power management settings and features utilised. Recharge time varies depending on usage. Battery may not charge while computer is consuming full power. After a period of time, the battery will lose its ability to perform at maximum capacity and will need to be replaced. This is normal for all batteries. To purchase a new battery pack, see your accessories information that shipped with your computer or visit the Toshiba websites at computers.toshiba.nl or computers.toshiba.be. • Small bright dots may appear on your TFT display when you turn on your PC. Your display contains an extremely large number of thin-film transistors (TFT) and is manufactured using high-precision technology. Any small bright dots that may appear on your display are an intrinsic characteristic of the TFT manufacturing technology.
